On July 15-16th, 2022 some of America's top doctors and scientists in the areas of pharmaceutical and environmental toxins, including Timothy R. Jennings, M.D., DLFAPA, presented a two-day summit in Grand Rapids, Michigan.

The Summit was an opportunity for providers and patients alike to hear the evidence-based science on some of the most controversial topics we face today in Federal and professional organization regulatory oversight and healthcare.

Below is Dr. Jennings' 54 minute presentation (also available in our **Main Menu > Resources > [Seminars & Presentations](#)**).
