

# [Find Us On Roku!](#)

written by admin | November 19, 2021

Do you have a Roku device or Roku-enabled smart TV and want to view our 'episodes' on the big screen? Then simply type "**comeandreason**" in the the Roku Search and Add our channel to your home page. Don't be confused; this is ONLY for Roku DEVICES, not the Roku Channel APP!

Our channel features the current year of bible study classes and Questions & Answers, five of our most popular seminar videos for on-demand viewing, and additional, special content.

Sorry, we cannot offer Live Streams, because Roku requires a 24/7 continuous feed for that feature to work in the programming environment we're using. Maybe someday we'll have a 24/7 "tv station" playing programmed content.
