This coffee-table-book-converted-to video contains the secret back-story and events of the war between God and satan, as fictitiously recorded by one of God's Celestial Watchers. It's easy to understand and has powerful images documenting what the Watcher has observed throughout human history.

If you've been confused about this battle, don't worry. The Journal holds the secrets to clear up the confusion. By anchoring its behind-the-scenes insights with human history, as recorded in Scripture, it makes comprehension easy and will prepare your mind for the great final battle that will end the war!
