Ancient Israel was instructed by God to celebrate certain annual feasts and festivals (holy days) in which all the people were to participate. These “holidays” were to occur in a specific order and were repeated every year to instill them into their hearts for a special reason. In addition to being a real, historical people who did real things, God’s people were to reveal to the world His kingdom, His methods, and His plan for saving humanity from sin. In this presentation, Dr. Tim Jennings uncovers God’s plan for humanity’s history, hidden in the symbols of the ancient feasts.
